Re: Letter of Recommendation

Dear Clayton:

As we draw close to the end of the Bond Issue projects at Schertz Cibolo Universal City I.S.D. I wanted to let you know how pleased we have been with the work your company has done for SCUCISD. I have been particularly impressed with your Construction Management expertise and diligence in seeing the full bond issue through to completion. Bob Skrobarczyk, the Project Manager assigned to the project, has been extremely helpful in making sure that what we have designed has been properly constructed in the field. I have found that Bob and everyone I have dealt with from your company has been hard working, detail oriented and very skillful in dealing with the subcontractors. I have seen first hand the financial benefits to the Owner in allowing Kencon to provide value engineering for the projects. Even though the projects we designed were challenging due to the design requirements and the budgets were tight, Kencon pursued the goal of providing the projects on time and in budget vigorously and successfully.

I am looking forward to working with Kencon Constructors again and you can rest assured that whenever a client asks us for a list of qualified General Contractors or Construction Managers, that we would place Kencon among the premier General Contractors in our region. In fact, whenever a current client asked me to put together a list of the top General Contractors in our area to bid his \$9.4 million dollar private school project, I made sure that Kencon was among the five General Contractors that were selected to bid the project.

Sincerely,

Mark Oppelt
